EDUCATION

BSC. Computer Science
Osun State University.

11/2017 – Present   *Osogbo /Nigeria*

Courses
- Computer Science

WORK EXPERIENCE

Junior Frontend Engineer
Whogobuyam ⤴

An online shopping solution that offer unique products for different collections of online stores

Achievements/Tasks
- I executed and contributed to full-stack web development projects, with an emphasis on frontend features, browser manipulation, and cross-browser compatibility to build a customer-facing single sign-on application
- I implemented and analyzed website analytics to highlight user flows that required usability improvements within the newly reskinned customer portal application

Intern at Echo Information technologies
Daada Estate . Osogbo

ECHO Information System Technologies is a leading technology outfit that focuses on building creative Information System. I work as front-end developer at echo

Achievements/Tasks
- We build software that solves problems
- School interactive management system

Andela Learning Community, Africa
Learner At ALC 4.0

The Andela Learning Community is a network of people, technologists and tech enthusiasts across Africa dedicated to learning how to use technology to solve humanity's problems powered by Google, Andela, and Pluralsight. I assist and mentor ALC 4.0 learners in the Mobile Web Track and set up, organize and champion ALC meetup centres in my community and communities nearest to me.
